

The Internet has transformed the home search process for buyers. In a recent NAR study, 88% of buyers found their internet research to be equally as important as consultation with their personal Realtor. RealtyUSA.com leverages that importance by maximizing usage of our website while simultaneously sharing our clients listings with multiple alternative online sources for real estate information. Talk to your Realtor today about how our Internet Marketing Partnerships can help you effectively sell your home.

How is RealtyUSA.com performing?

Monthly Hits Average 5 Million,
Including Over 180,000 Unique Visitors.
Average time spent on site: 10mins 15secs
Put www.RealtyUSA.com to work for you!
